

FOR IMMEDIATE RELEASE

February 9, 2017

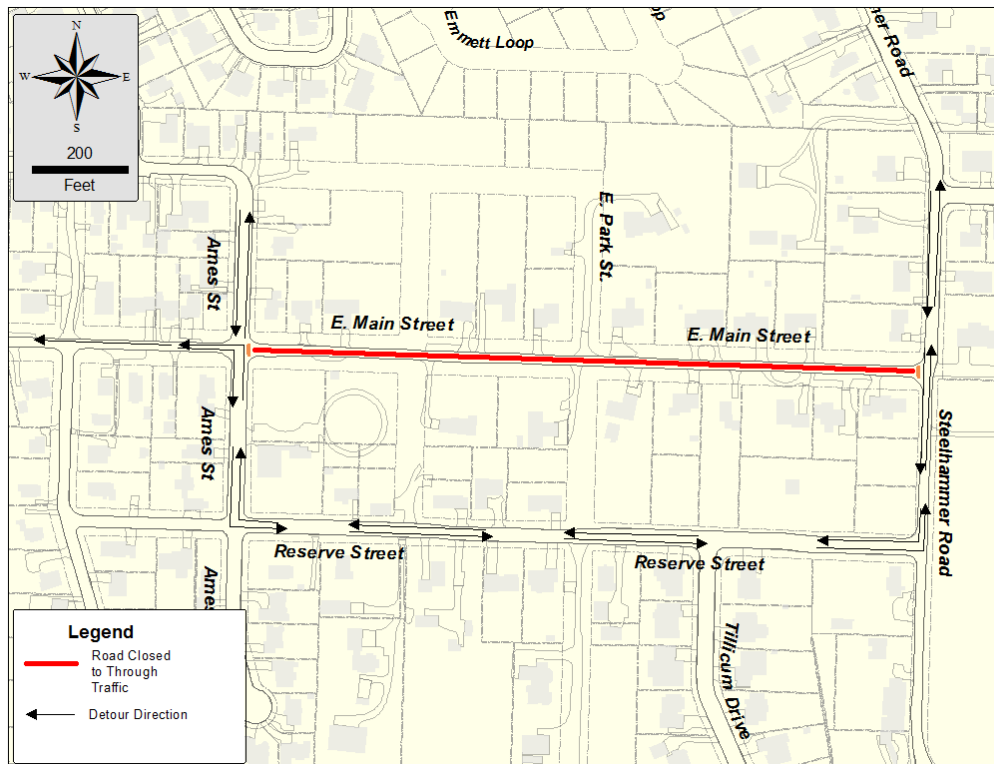

Public Works – City of Silverton
306 S Water Street
Silverton, OR 97381

TRAFFIC ADVISORY – ROAD CLOSURE

East Main Street from Ames Street to Steelhammer Road Closed 7:00 AM to 7:00 PM

Beginning February 13, 2017, crew members and equipment from Cade Construction will be working on the north side of East Main Street to install 370 lineal feet of sanitary sewer main in a westerly direction, and then turn south to cross East Main Street. The work on East Main is expected to be completed by March 17th, depending on weather and unforeseen ground conditions. Detour signs will be set at both the intersections with Ames Street and Steelhammer Road, directing traffic around the site to Reserve Street. Local residents may go through to access their homes with the assistance from the construction crew. The affected roadway will be open to travel during non-construction hours.

The City thanks you in advance for your patience. If you have any questions or concerns please contact Sue DeVore, Engineering Technician, at 503-874-2211 or email at sdevore@silverton.or.us.
