

CITY OF SILVERTON PUBLIC WORKS

306 S. Water Street | Silverton, Oregon 97381

May 3, 2022

RE: Silverton 2022 Overlay Project

This year 4 blocks of streets are to be improved including Jersey from Water to 1st, 1st from Lewis to Jersey, Lewis from 1st to 2nd, and 2nd from Lewis to Main. Work includes improving some ADA ramps, grinding the existing road surfaces, installing a couple of storm infiltration systems, and installing 3" of new asphalt on the 4 block.

Construction is starting in April and will end in July. There will be days during construction when the street sections being improved will be closed to traffic. The contractor will be responsible for opening the roads at the end of each day and roads will be opened on weekends. The Contractor will be responsible for notifying residents and business owners ahead of time the specific days the roads will be closed. The General Contractor is K&E Paving.

The sidewalks for all the streets will be open so people will be able to access residences and businesses at all times during construction.

Please contact me at (503) 874-2209 or bstepp@silverton.or.us if you have any additional questions about this project. I will be the project manager and will be out on-site observing the contractor for much of the project.

Sincerely,

Bart Stepp, PE
City Engineer
